CAREER OBIECTIVE

Results-driven Full Stack Developer with hands-on experience in building scalable web applications using MERN stack and Django. Strong expertise in backend development, REST API design, database management, and AI integration. Developed production-level applications with real-world deployment. Passionate about solving complex problems and building efficient systems.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript
Frontend: React.js, HTML, CSS
Backend: Django, Flask, Node.js, Express.js
Database: MongoDB, PostgreSQL, MySQL
Tools & Platforms: Git, Postman, VS Code, Render, Vercel

PROIECTS EXPERIENCE

PUNDX – Community Savings Management System (Production)

- Developed real-time financial platform using Django & PostgreSQL
- Designed REST APIs and implemented secure authentication (JWT)
- Built role-based access system and deployed on cloud
- Ensured scalable backend architecture for real-world usage

AI Resume Analyzer & Recruitment System

- Built AI-powered system using MERN stack + FastAPI
- Implemented resume parsing, ATS scoring, and candidate ranking
- Integrated backend APIs with AI services for automation

Driver Safety AI System

- Developed real-time driver monitoring system using OpenCV & YOLOv8
- Implemented drowsiness detection and distraction tracking
- Built FastAPI backend and integrated React dashboard

AI Face Attendance System

- Developed face recognition system using Python & OpenCV
- Implemented anti-spoof detection and MongoDB integration
- Automated attendance tracking with high accuracy

INTERNSHIP EXPERIENCE

Java Full Stack Intern – Inventron (2026–Present)

- Developed backend modules and structured API logic
- Worked on database integration and data handling

Cybersecurity Intern – Ultismart Infotech (2023)

- Assisted in vulnerability analysis and secure coding practices
- Gained hands-on experience in system security

EDUCATION

Bachelor of Engineering (CSE) – VTU (2023–2026)

- Government Engineering College, Chamarajanagar
- CGPA: 7.86

Diploma in Computer Science Engineering (2020–2023)

- Government Polytechnic, Chamarajanagar
- CGPA: 8.09

KEY STRENGTHS

- Full-stack application development
- Backend API design & database optimization
- AI integration in real-world systems
- Problem-solving and logical thinking
- Quick learner with adaptability
