

S P DARSHAN

Full Stack Developer (Django + React) · Open to Full Stack / Backend Roles

spdarshan252@gmail.com | +91 7676324020 | github.com/spdarshan46 | linkedin.com/in/spdarshan252 | Karnataka, India

SUMMARY

Full Stack Developer specializing in Django and React with experience building and deploying production-ready web applications. Developed scalable systems handling real users and real-time data. Strong in backend architecture, REST API development, and database design. Experience working on live production applications with real users.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java
Frontend: React, HTML, CSS, Bootstrap
Backend: Django, Django REST Framework, FastAPI, Node.js, Flask
Database: PostgreSQL, MySQL, MongoDB
Tools: Git, GitHub, Postman, Render, Vercel, REST API Development, JWT Authentication

PROJECTS

PUNDX — Smart Finance & Fund Management

Live · www.pundx.co.in

Django REST · React · PostgreSQL · JWT · Vercel · Render · Supabase

- Design and built full-stack platform using Django REST + React
- Implemented loan lifecycle management and real-time transaction tracking
- Designed secure JWT authentication and scalable PostgreSQL database
- Deployed production-ready system with financial analytics and PDF reporting

AI Resume Analyzer & Recruitment System

React · Node.js · Express · MongoDB · Python · FastAPI

- Developed AI-based system reducing manual resume screening effort by ~60%
- Built candidate ranking and ATS scoring engine using Python (FastAPI)
- Designed admin dashboard and job application workflow system

Campus Flow — Academic Management System

Django · PostgreSQL · Flutter

- Developed role-based system (HOD, faculty, students, account, admission, admin) using Django
- Built backend for student records, subject allocation, and academic workflows

Driver Safety AI System

Python · OpenCV · YOLOv8 · MediaPipe · FastAPI · React

- Built real-time driver monitoring system using OpenCV and YOLOv8 (95%+ accuracy)
- Implemented drowsiness and phone detection with live alerts and React dashboard

PROFESSIONAL EXPERIENCE

Trainee Software Engineer — Invention Technologies and Business Solutions LLP

2026

Bangalore, Karnataka

- Trained in MERN stack (MongoDB, Express.js, React.js, Node.js) for full-stack web development
- Built and worked on full-stack modules including frontend UI and backend API integration
- Developed REST APIs and handled database operations using MongoDB
- Contributed to debugging, feature development, and application improvements

Cybersecurity Intern — Ultismart Infotech LLP

2023

Mysore, Karnataka

- Gained hands-on experience in security concepts and vulnerability analysis

EDUCATION

B.E. Computer Science Engineering — VTU

2023 – 2026

CGPA: 8.13

Diploma in Computer Science Engineering — DTE

2020 – 2023

CGPA: 8.09

ADDITIONAL

- Built and deployed real-world applications used by active users in production
- Strong problem-solving and backend system design skills
- Available for Full Stack Developer roles | Immediate joiner
